

## Frequently Asked Questions

### What is Clean Exit Ethics Certification?

The clean Exit Ethics at Workplace certification is focused on upholding integrity at workplace at all times.

### What happens if I behave unethically?

Your employer can report to clean exit about a non-compliance or illegal activity, affecting your integrity score. Lower score means fewer job opportunities for working with major brands and higher risk of legal liabilities.

### Can I appeal against a complaint?

You have every right to appeal against each and every complaint. The platform notifies you of any serious charges claimed and allows you to dispute and provide your response.

### What is Social Rating?

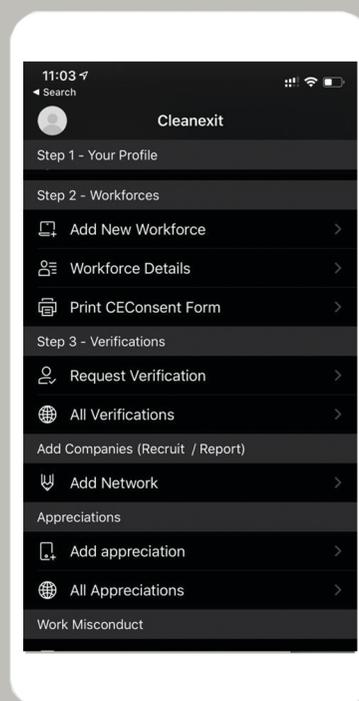

Social Rating analyzes your social media activities and provides a score to help employers understand your online behavior.

### What is ISAC?

ISAC is Indias leading non-profit foundation and is a public private partner with National Critical Infrastructure Protection Center (**NCIIPC**), Prime Ministers Office, Government of India, Supported by All India Council of Technical Education (**AICTE**), Ministry of Human Resource and Development and **CERT-IN**, Ministry of Electronics and Information Technology (MeitY), Government of India.

**Ethics Program For  
Wellness Industry**

## Protect your Reputation.

India is known for its ancient culture and being the center of Ayurveda, Yoga, Sidha, Naturopathy and Spirituality for inner wellbeing. In last year alone, over three hundred thousand foreign tourists visited India for the purpose of wellness and medical tourism.

Mushrooming of wellness centers to cater this demand across India has given rise to the quality concerns and ethics of therapists involved in the profession. High crime rates against women and exploitation of young females for illegal activities in the spa industry has become a challenge for the tourism industry as it affects the overall image of the country.

A single incident of illegal activity in a major hotel chain or a reputed spa outlet can completely destroy the brand and goodwill of a company, resulting in heavy legal liabilities, loss of corporate customers and potential business. [a](#)

To prevent this, major brands are increasingly looking at hiring ethically strong spa therapists and professionals with clean track record to boost their business and protect their brand reputation.

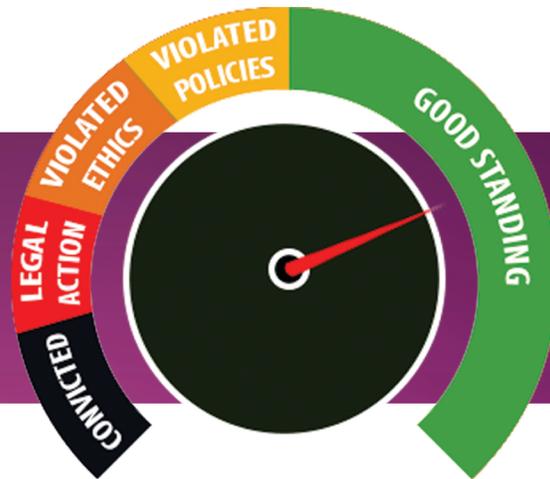

The **Clean Exit Platform** enables identification of skilled and certified therapists with high integrity for better job opportunities through reputation scores, reduces legal risks and helps therapists be proud of their profession.
